

Machine Name **Bristle Blaster Electric Tool**

Description Bristle Blaster is a compressed air driven tool for removing paint and corrosion and roughening of the surface to 65-83 μm (Rz) - all in one single working process. Simple to use, no special safety helmet and suit required - just wear eye goggles, dust mask and gloves. Works with both 23 mm and 11 mm belts. The tool is supplied in a practical suitcase including extra belts, air pressure regulators, etc.
